Extended Hours

Now Stocking Laser Quality Plate Products

Parker Steel now stocks High Strength Steel Plate that is thermo-mechanically rolled for cold forming according to EN10149-2

This material is ideal for state of the art laser cutting applications requiring higher speeds, improved edges, and less distortion in the part. It is produced to close tolerances on chemistry and mechanical properties with good surface quality, exceptional flatness and dimensional control, and low residual stress.

Available from stock in grade S355 MC. Other grades available upon request.

Everyone at Parker Steel hopes you had a wonderful summer season and wishes you a happy and healthy fall. We look forward to working with you again soon and wish the best for you and your business.

Please call (800-333-4140), email (sales@metricmetal.com), or fax (419-471-2655) us anytime if you have any questions or would like to place an order.

Sincerely,

Paul Goldner
