Stainless Steel Plate

Big projects coming up in 2014? Get ahead of the game by ordering your 2014 project material now. You don't want to be left out in the cold with a big project and no material.

Our stainless steel plate is plentiful and in stock now. We offer a variety of grades, many of which can be used for nuclear applications such as 304/304L, ASTM A240/240M, EN 10088-2, 1.4307, and 1.4301. Thicknesses vary from 1mm up to 30mm. We also offer 316/316L.

We offer 2 finishes of the nuclear application stainless, [2B](#) and [1D](#). The 2B is offered in thicknesses of 1-8mm and comes cold rolled, heat treated, pickled and skin passed. The 1D finish is offered in 10-30mm thicknesses and is a

**Bilingual Call
Center**

hot rolled material which is pickled, free of scale.

Parker Steel supplies metric metal to all of North America, including of course, Canada and Mexico. In addition to the many English speaking sales associates, we also have at least one bilingual sales person answering your calls at all times.

We offer an even larger variety of cold rolled stainless steel sheet which you can find [here](#) . We also offer a 430 stainless with a 2R finish, which is a cold rolled, bright, annealed, reflective surface..

Don't forget about our extensive line of Hot rolled plate for your structural needs.

Ignacio Garnica , who has been with us for 51/2 years, along with Mikael Rubio are ready to assist you with your needs in either Spanish or English, written or spoken. We are very pleased to have Ignacio and Mikael providing their assistance to our Spanish speaking customers on our behalf.

Thank You

Have a wonderful and safe summer.

We have also created a Spanish website for our Spanish speaking customer's convenience. Please see our [Spanish website here](#).
