A PARKER STEEL COMPANY

Parker Steel offers metric sized metals only.

At Parker Steel Company, we stock cold drawn rounds, hexagons, squares, flats, TG&P shafting, chrome plated shafting, seamless and welded round tubing; welded square and rectangular tubing; round and square telescopic tubing; hydraulic tubing; capillary tubing; threaded rod; cold and hot rolled sheets and plates; shims; tees; angles; channels; beams; and drill rod, all in millimeter sizes. We have a wide selection of metal types and grades including carbon steel, tool steel, alloy, stainless steel, brass, aluminum, and titanium.

Parker Steel is very unique in that we are the only steel distributor in the United States that stocks exclusively metric dimensional metals. Our products are perfect for the customer who requires pre-sized metric stock, which eliminates the need for further machining.

We thrive on excellent service and quality. We are [ISO 9001:2015](#), and C-TPAT (Customs-Trade Partnership Against Terrorism) certified. Certifications and test reports can be furnished upon request.

Drop shipments can be arranged to meet your needs and a variety of cutting options are available. If you do not find the size or grade of metal in our Reference Guide, [contact us](#) and we will make every attempt to get it for you immediately. For a hard copy please [contact us](#) or download our current [digital Reference Guide](#) now.
